- Experienced in designing, developing, and deploying enterprise applications with focus on performance and scalability.
- Strong in troubleshooting, debugging, and client interaction.

PROFESSIONAL EXPERIENCE

- **Software Developer**
Cybilltech Technologies Pvt Ltd. | Jan 2020 – Mar 2021
- **NOC Engineer**
TATA Communications Transmission Services | Mar 2021 – Jun 2022
- **Software Developer**
AppShark Software Pvt Ltd. (Subsidiary of Cambridge Technology Enterprises Ltd.) | Jun 2022 – Jun 2023
- **Software Developer**
CTE Web Apps Pvt Ltd. (Subsidiary of Cambridge Technology Enterprises Ltd.) | Jul 2023 – Dec 2024
- **Software Developer**
RP Web Apps Pvt Ltd. (Subsidiary of Cambridge Technology Enterprises Ltd.) | Jan 2025 – Present

SKILL PROFILE

Technologies	ASP.NET MVC , C#.Net, ASP.NET Core, Entity Framework
Programming Langs.	jQuery, JavaScript.
Database	MS SQL Server.
OS Known/Worked on	Windows 8, Windows 10/visual studio 2017,visual studio 2019/2022
Source Controls	GitHub, Bitbucket

PROJECTS HANDLED

PROJECTS :

Project : RAKNOC
Client : RAK
Role : Development

Technology : C#, .Net Framework, ASP.NET MVC, ASP.NET Core, MS SQL Server.

Description:

- Currently developing an application using .NET Core based on client requirements.
- Continuously working on new features and improvements to meet client needs.
- Collaborating with the client to understand and implement their requirements effectively.

Project : **Curvature Applications**

Client : **Curvature**

Role : Development

Technology : C#, .Net Framework, ASP.NET MVC, ASP.NET Core, MS SQL Server.

Description:

- It is a client project where I'm working on multiple applications.
- We have used technologies like ASP.NET MVC, ASP.NET core, SQL server and C# language.
- In this project have multiple applications.

Key Responsibilities:

- Resolve any issues that may arise a ticket regarding any issue or new changes that including troubleshooting and debugging based on client requirement.

PROJECT : **SxeConsoleApplication**

Client : **Legends**

Role : Development

Technology : C#, ASP.NET Core, MS SQL Server.

Description:

- It mainly works on getting data from Square Table and sending it to SXE after integrating with the SXE API.
- I created a console application with it. Net Framework.

Key Responsibilities:

- Involved in each phase of the project, taking requirements from clients and developing the application.
- Developing the application in parallel with testing and deploying it to production.

PROJECT : **TfsRemainderMails**

Role : Development

Technology : C#, .Net Framework, MS SQL Server.

Description:

- This is a product based project.
- Our system sends reminder emails when resources fail to fill timesheets.
- The emails are triggered every Monday. It will be checked four weeks before the trigger date.
- This application is scheduled using Task Scheduler.

Key Responsibilities:

- Involved in the creation of the application and each project step.
- Developing the application in parallel with testing and deploying it to production.

PROJECT : HR-Portal
Role : Design and Development
Technology : VB.NET, C#, MS SQL Server.

Description:

- This is a product based project.
- Our role is responsible for the day-to-day maintenance and upkeep of the company's HR portal.
- This includes troubleshoot technical issues related to the HR portal and making necessary changes to the content and design.
